

LinkedIn Algorithm 2026

the top 1% will *win* in 2026.

here is the rule to follow

@alamin-social

1

Kill the Robot Voice

- ↳ ***AI is a tool, not the author.***
- ↳ ***If your post has no "scar tissue" (real struggle), it has no value.***

2 **Video Must Be Ugly**

- ↳ **Stop polishing your videos.**
- ↳ **Raw, imperfect video builds trust. High production just looks like an ad.**

3

Build the Small Circle

- ↳ **Stop chasing IM followers.**
- ↳ **Build a "micro-community" of 100 people who actually buy. Depth beats width.**

Trust is the new currency. The algorithm does not care about your hacks anymore. It cares about your humanity.
